ARTS, HUMANITIES & CULTURE

1) Japan Foundation Announces U.S.-Southeast Asia-Japan Collaboration and Exchange Initiative

- **Deadline:** November 1, 2017
- **Amount:** $200,000 over 2 year

This initiative is designed to connect Japan scholars from the U.S., Southeast Asia, and Japan in order to enhance their collective scholarship through collaborative projects and exchanges, as well as to advance Japanese Studies in these three regions. The Japan Foundation hopes that Japan scholars and students from all three regions and across many disciplines will benefit mutually from the creation of scholarly networks and the sharing of Japanese Studies resources, research methodology, and practical collaborative work. Projects will be based at U.S. institutions with strong existing or developing Japanese Studies programs, in order to share the wealth of Japanese Studies resources present in the U.S., and to establish and/or strengthen connections with individuals and institutions in Southeast Asia and Japan.

In this round, the Japan Foundation is welcoming proposals ranging from 1-2 years. The maximum funding request amount of $100,000 per year applies to all project proposals, but applicants are not required to request the maximum amount.

Projects must commence between April 1, 2018 and March 31, 2019 and its duration can be up to two years. The maximum amount of the grant request from the Japan Foundation is $100,000 per year.

1) **Spencer Foundation Invites Proposals for Education Research Projects**

- **Deadline:** November 1, 2017
- **Amount:** up to $50,000

Spencer Foundation supports high-quality investigations of education through its research programs and to the strengthening and renewal of the educational research community through its fellowship/training programs and related activities. To that end, the foundation is accepting proposals through its Small Research Grants Program from education research projects. In keeping with the foundation's mission, the program aims to fund academic work that will contribute to the improvement of education, broadly conceived. Examples of previously funded projects include an experimental study of how college students use visual representations in solving math problems; a study exploring the process of racial and rural identity formation among African-American high-school students who attend de facto segregated schools in the rural South; and a mixed-methods study focused on the different types of knowledge novice and experienced teachers draw on in teaching reading comprehension.

To be eligible, principal investigators and co-PIs must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. In addition, the PI must be affiliated with a college, university, school district, nonprofit research facility, or nonprofit cultural institution that is willing to serve as the fiscal agent should a grant be awarded.

HEALTH & MEDICAL RESEARCH

1) Foundation for Physical Medicine & Rehabilitation Accepting Applications for Mid-Career Research Grant

- Deadline: November 1, 2017
- Amount: $20,000

One $20,000 grant will be awarded for a research project in the area of physical medicine and rehabilitation by an established investigator with a track record of success. The annual award aims to allow the researcher to extend his/her work in a new direction.

Eligible applicants include any physiatrist or faculty member in a division or department of physical medicine and rehabilitation who is between five and twenty years post-completion of a terminal degree and subsequent training program. Applicants must be able to demonstrate a history of successful research experience.

Special consideration will be given to proposals that meet the foundation's goal of driving the evidence base for cost-effective, results-oriented rehabilitative care.

1) **Hertz Foundation - Graduate Fellowships**
   - **Deadline:** October 27, 2017

Eligible applicants for Hertz Fellowships must be students of the applied physical and biological sciences, mathematics and engineering who are citizens or permanent residents of the United States of America, and who are willing to morally commit to make their skills available to the United States in time of national emergency (see our Moral Commitment section http://hertzfoundation.org/dx/fellowships/commitment.aspx). Eligible applicants for Hertz Fellowships must be citizens or permanent residents of the United States of America. First-year grad student applicants are eligible.

We generally do not award fellowships to students who are already beyond their first year of graduate study except in cases of "exceptional leverage". Such awards are very rare-only three have been made in the past 10 years. (Leverage here means what difference the award of the Hertz Fellowship is likely to make in the kind, quality, and/or personal creativity of the student's graduate research.)

If your master's degree is in a different field you can apply as a first year graduate student in this field. If it is in the same field, then it will apply. You can confirm this with your graduate school's department if they consider you a first year grad student, list yourself that way if you choose to apply this year. For the purposes of the Hertz application, graduate level work performed before the award of a BS or BA degree is not counted toward years of graduate work.

1) **Council on Foreign Relations Seeks Applications for International Affairs Fellowships**

- **Deadline:** October 31, 2017
- **Amount:** $100,000

The Council on Foreign Relations is accepting applications for its International Affairs Fellowship Program, which offers unique opportunities for mid-career professionals focused on international relations.

Launched in 1967, the twelve-month fellowship is designed to assist mid-career scholars and professionals in advancing their analytic capabilities and broadening their foreign policy experience. The program aims to strengthen career development by helping outstanding individuals acquire and apply foreign policy skills beyond the scope of their professional and scholarly achievements. CFR awards approximately ten fellowships annually to highly accomplished individuals who have a capacity for independent work and who are eager to undertake serious foreign policy analysis.

Fellows selected for the program will receive a stipend of $100,000.

To be eligible, applicants must be a mid-career professional who has a demonstrated commitment to a career in foreign policy. The program welcomes applicants from a broad range of professional, academic, and personal backgrounds. While a PhD is not a requirement, selected fellows generally hold an advanced degree and possess a strong record of work experience as well as a firm grounding in the field of foreign policy.
