ARTS, HUMANITIES & CULTURE

1) William Orr Dingwall Foundation Announces Dissertation Fellowship in the Cognitive, Clinical, and Neural Foundations of Language
   • Deadline: March 15, 2018
   • Amount: $30,000

The fellowships focus on the branch of linguistics that studies the relationship between language and the structure or functions of the nervous system. Applications to support dissertation research that do not directly investigate that relationship will not be considered.

1. The nominee will be selected by a process to be decided upon by his/her program or department.
2. The nomination should be made in a letter from the Department/Program Head or Graduate Director that briefly (1) describes the selection process, (2) summarizes the considerations that led to the selection of this particular doctoral candidate as the program’s nominee, and (3) describes the nominee’s additional funds, if any, including amounts, sources, purposes (such as travel expenses, research costs, living expenses, etc), and any requirements for duties to be performed.

6) Dartmouth Coll. - Africana Studies Dissertation Fellow (Open | $36K - 1st yr Fellow; $55K - Postdoc)
CHILDREN, YOUTH & EDUCATION

1) World of Children Accepting Nominations for 2018 Awards Program
   • Deadline: March 31, 2018
   • Amount: Various

   The World of Children Award program was created to recognize individuals who make a difference in the lives of children in the United States and around the globe, regardless of political, religious, or geographical boundaries. The program awards grants to proven, high-impact programs created by individuals that touch, improve, and change children’s lives forever.

   - **Protection Award:** Recognizes individuals making extraordinary contributions to children so that they can live free from fear, abuse, and exploitation (including but not limited to trafficking, slavery, and sexual imposition). The award is designed to help more children live lives that are free and healthy. The minimum award amount is $50,000.

   - **Education Award:** Recognizes individuals making substantial contributions to children in the educational arena, including individuals who have made and are making education available to underserved populations, those who innovate new methods of learning and teaching, and those whose work creates educational opportunity for children who are challenged or disenfranchised. The minimum award amount is $50,000.

   - **Humanitarian Award:** Recognizes an individual who has made a significant contribution to children in the areas of education, social services, or humanitarian services. Nominees must have created, managed, or otherwise supported a sustainable program that has significantly contributed to children’s opportunities to be safe, to learn, and to grow; must be doing this work over and above their normal employment, or work for little or no pay; must have been doing this work for a minimum of ten years; and have an existing nonprofit organization in good standing that can receive grant funds. The minimum award amount is $50,000.

   - **Health Award:** Recognizes an individual who has made a significant contribution to children in the fields of health, medicine, or the sciences. Nominees must have created, managed, or otherwise supported a sustainable program that has significantly contributed to the improved health of children; must do this work over and above their normal employment, or work for little or no pay; must have been doing this work for a minimum of ten years; and must have an existing nonprofit organization in good standing that can receive grant funds. The minimum award amount is $50,000.

   - **Youth Award:** Recognizes youth that are making extraordinary contributions to the lives of other children. Nominees must be under the age of 21 by the nomination submission deadline; must have an existing nonprofit organization in good standing that can receive grant funds; and must have been doing this work for a minimum of three years by the submission deadline. The minimum award amount is $25,000.

   - **Alumni Award:** Recognizes past honorees whose work has been excellent and awards them additional funds to further their work for children. Nominees must have previously received a World of Children Award.

HEALTH & MEDICAL RESEARCH

1) Bay Area Lyme Foundation Seeks Applications for Emerging Leader Awards

- **Deadline:** February 28, 2018
- **Amount:** $250,000 - Assoc. Professor and above; $100,000 - Postdoc level up to Asstnt. Professor

The Bay Area Lyme Foundation is seeking applications for its Emerging Leader Award program. The annual program supports new and innovative projects, with the goal of attracting new scientific talent to the field of Lyme disease.

In 2018, two $100,000 grants will be awarded to researchers in academia or the private sector currently working at the postdoctoral level, assistant professor level, or the equivalent. Applicants must have identified a defined approach to improving diagnostics or therapies for Lyme disease. Important criteria include demonstrated professional and scientific leadership in the biomedical sciences and a strong supporting scientific rationale for the project.

In addition, a single grant of $250,000 will be awarded to a veteran scientist with the title of associate professor or above who has not previously worked in Lyme disease research. Applicants must be at a U.S. academic institution or corporate equivalent and propose to apply their work in other fields to therapeutics or diagnostics in Lyme disease.

27) **CHEST Fdn** - Distinguished Scholar & Rsrch Grants (4/9/18 | Various)
28) **Prostate Cancer Fdn** - Team Science 2018 Challenge Awards (4/23/18 | $1M)
29) **Pardee Fdn** - Cancer Rsrch Proj. (4/30/18)
30) **Lundbeckfonden** - Int'l Neurosci. Prog. (6/4/18 | $494K)
SCIENCE, TECHNOLOGY & ENVIRONMENT

1) Human Frontier Science Program
   • Deadline: March 28, 2018
   • Amount: up to $450,000

The Human Frontier Science Program (HFSP) is a niche program that supports innovative basic research into fundamental biological problems with emphasis placed on novel and interdisciplinary approaches that involve scientific exchanges across national and disciplinary boundaries.

Awards are made to international (preferably intercontinental) teams of 2 to 4 members. Successful projects often involve an element of risk (see 2.2.e below). The participation of scientists from disciplines outside the traditional life sciences such as biophysics, chemistry, computational biology, computer science, engineering, mathematics, nanoscience or physics has made biological research increasingly quantitative and will continue to do so. Such collaborations have opened up new approaches for understanding the complex structures and regulatory networks that characterize living organisms, their evolution and interactions.

To stimulate novel, daring ideas and innovative approaches, preliminary results are not required in research grant applications. The HFSP places special emphasis on encouraging scientists early in their careers – this is expressed both in the establishment of a special Young Investigators’ Grant and in encouraging scientists early in their careers to participate in the Program Grants. Applicants are expected to develop new lines of research through the collaboration. HFSP funds are not intended to complement or substitute for ongoing research supported by national funding agencies.

4) Am. Speech-Language-Hearing Fdn - Rsch-Practitioner Collab. (4/16/18 | $35K)
5) Wenner-Gren Fdn - Post-PhD Rsrch Grants (5/1/18 | $20K)

ADDITIONAL OPPORTUNITIES (Includes: Journalism, Veterans, Women's Studies, etc.)

1) International Women’s Media Foundation Accepting Applications for Women Journalists Fund
   • Deadline: March 9, 2018

The mission of the International Women's Media Foundation is to unleash the potential of women journalists as champions of press freedom and transform the global news media.

To that end, the foundation is accepting applications for its Howard G. Buffett Fund for Women Journalists, which provides the financial support for women journalists to pursue opportunities that can help make them leaders in the news industry. Established with a $4 million gift from the Howard G. Buffett Foundation, the fund supports educational opportunities, investigative reporting projects, and media development initiatives.

Through the program, IWMF will award grants totaling $230,000 in support of a wide range of innovative, original, and collaborative news media projects, and to strengthen the skills of women journalists worldwide. Media projects may include but are not limited to investigative reporting, books, documentaries, radio programs, media development initiatives, and reporting assignments.

Women journalists from anywhere in the world are eligible to apply. However, journalism must be the applicant's primary profession, and applicants must have at least three years experience as a professional journalist.
